TECHNICAL SKILLS

Technologies: HTML | CSS | Javascript | React | Redux | Sequelize | Node | Express | Git | PostgreSQL | MySQL

TECHNICAL PROJECTS

Sport Buddies | Developer | Mar/2023 | [Github](#) | sportbuddies.us

A sports website for connecting athletes of all ages, disciplines and skill levels.

- Utilized Redux to manage the state of the application, ensuring a consistent and predictable state across the entire application. Managed API routes.
- Set up authentication via Firebase.
- Utilized knowledge of HTML, CSS, Bootstrap, JavaScript to build a visually appealing and responsive interface.

LH Studio | Developer | Mar/2023 | [Github](#)

A beauty salon website to promote the salon's services and attract new customers. The website also allows customers to book appointments online, providing convenience and ease of access.

- Applied Bootstrap and CSS to create a dynamically responsive design that adapts to different screen sizes, ensuring optimal user experiences across devices.
- Used Express and Sequelize to build a robust infrastructure for managing the booking system and storing data.
- Implemented Redux to manage the application state and handle user interactions across various components of the website.

Ecommerce Site for Plants | Developer | Feb/2023 | [Github](#)

An e-commerce website for selling plants that allows guest users to browse and shop and logged in users to access their previous orders and save their details for next time.

- Created and managed database schema for users, carts and products
 - Set up authentication via local Email and password
 - Developed interactive front-end components using React, including the header, product list, and shopping cart, to provide a dynamic and engaging user experience
-

EXPERIENCE

Waiter | Avenue Le Club | Long Branch, NJ | Jun/2018 - Jan/2023

- Enduring high pressure situations, I have successfully managed a busy section of the restaurant during peak hours while serving up to 20-25 tables at a time.
- Contributed to generating an average of \$5000 in daily sales for the restaurant by promoting menu items and offering customer service.
- Trained 20+ waiters, conducting assessments and providing feedback to maintain consistent service quality and create a highly skilled team.

Accountant | NewProdest | Minsk, Belarus | Jun/2016 - Jun/2018

- Developed a financial strategy for the year 2017, which led to a 12% increase in the company's net profit, earning extra \$120,000 for the company
 - Implemented streamlined financial processes and strategic budgeting, resulting in a significant cost reduction of 54% and a savings of \$85,000 for the company in 2016.
 - Guided and educated a team of 3 accountants, ensuring their proficiency in financial management and compliance.
-
